THE PEOPLE'S PAPER.

-THE-

SALT LAKE DAILY HERALD.

The Herald enters upon the new year with better hopes and brighter prospects than it ever before enjoyed. The remarkable success of the paper in the past, as maniferted by its large and steadily growing subscription list, its increasing advertising patronage and the expressions of goodwill towards the journal which greet us from all quarters, convinces the publishers that they are doing what they set out to do—namely, furnish a newspaper that the people would like, and therefore support. The Herald, se in the past, will be the people's paper. Independent in a political sense, it will always be found on the side of the people, outspoken on questions affecting the rights of the masses; battling for local self-government and the largest liberty to individuals consistent with public good; laboring for a pure, honest and economic administration of government. viduals consistent with public good; laboring for a pure, honest and economic administration of government; treating public matters dispassionately and employing language catculated to enlighten the reason of men, rather than influence their passions. and working for peace and the de-velopment of the resources of the terretory, instead of trying to create strife and retard progress. With our increased facilities for gathering news, both by telegraph and mail, the employment of a larger number of correspondents in different sections of the country, and the better arrange-women of all the many details of the office." respondents in uncerent sections of the country, and the better arrange-ment of all the many details of the establishment, we confidently promise to make the Salit Lake Dally Hauald a better paper than ever.

Work more becoming or more suited the year, and the same degree of progress and improvement that marks the Daily will be seen in its columns. No better newspaper can be found in the west for those people who are not blessed with daily mail facilities, than the SEMI-WEEKLY HERALD. It contains all the news, domestic and foreign, in a condensed and readable form. The design has been to make it combine the distinguishing characteristics of a commercial and home journal, and we believe that this has been successfully carried out. The SEMI-WEEKLY has certainly met with unexpectedly high favor at the hands of the people, at is proposed to make it even more

WEEKLY HERALD.

About the 1st of March, we will anywhere out of it. There she reigns About the 1st of March, we will begin the publication of a Weekly Edition of the Herald. The demand for such a paper has been very pressing during the past two or three years. The aim of the publishers will be to fornish a paper for those people who live off the main lines of travel and who are not accommodated with mail service oftener than once a week; to provide a newspaper for those who have only one day a week of leisure to devote to the pleasant and profits ble employment of reading; to supply a suitable edition of the Herald for tending abroad—a paper that shall seem to see in the hearts of mothers great and growing territory, with its great and growing territory, with its
many and important industries and
its thrifty, enterprising people; to

Nothing will be admitted to its columns that has not first been carefully prepared and revised. The price will be only \$2 a year, a figure unprecedentedly low for a far west newspaper. We confidently predict for the Weekly Herald one of the greatest successes, and the efforts of the publishers shall be to make the paper merit the popularity that it cannot fail to attain.

THE WOMAN QUESTION.

Wo. IV. SALT LAKE CITY, Jan. 26, '80.

Editors Herald: The Woman's Disabilities Bill now before the Legislature seems to be the absorbing tope of interest smnng all classes, and at all places and times, There are some in favor of the passage and many against it becoming a law. I have read with interest the communications that have appeared in your columns from the pens of 'Ben Lomond' and "Ben Nevis,"

and the general impression seems to me to be in favor of the last writer's arguments. "Ban" No. 1, has, how-ever, come out in another communistion, and in it he disclaims any

to woman than the domestic duties of her household; that there is no work which will bring her more credit and glory than the proper cars and train-ing of her children—such cars and

training as will make honest, moral and industrious citizens of them. And yet, in the next breath, you may hear them clamoring for their "rights," in other words, for the cial and home journal, and we believe that this has been successfully carried out. The SEMI-WEIKLY has certainly met with unexpectedly high favor at the hands of the people. It is proposed to make it even more popular than in the past by reducing the price to \$3.50 per annum, making it the cheapest semi-weekly paper in the west. The reduction in price does not imply a lessening of the quantity of matter published. Its columns will continue full of news and choice literature.

"Gov" Smith Retires-Fusion-ists Sick and Lonely.

Angusta, 27.—Fusionists were very much depressed at the receipt of the news from the court. Major Smith said he believed the controversy had now ended. He said while the previous opinion of the judges was based on a republican statement, there was room for reasonable doubt, but in view of the fact that the court had decided against them on a fusion statement, they could but gracefully submit. He had got through playing governor, and should go home. Major Smith's views will be shoped by the better part of the fusionists who will take their soats in the legislature. Sawyer says he still considers himself secretary of state. Henry Ingalls, a leading member of the fusion home, says he is not prepared to give an opinion to-night, but has always been in favor of yielding to the court

Augusta 28.—The Capital Guards and Richards' Light Infantry marched out of the state house at 9 o'clock this morning. The fusion legislature met in Union Hall. Reporters were excluded. The house immediately took recess till 4. The general expression of fusion members is to go into the state house legislature. It is expected they will dissolve sine die to merrow.

In the house, Hill, of Corinth, and Millicen, of Burnham, fusionists, took their seats.

cause there is no good reason why the fence should not be kept as it is at present. This is, or seems to be, very peculiar. He does not want woman in office, and would even prefer that she should not be, and yet he is willing, even anxious, that the bar to her occupancy should be let down. If it is let down, there is but little question as to whether the fair sex, or at least a portion of them, in this territory, would want office. There are some, undoubtedly, who would make a loud chamor for official position, and a still louder noise if they did not get it, and, as "Ben of the venture women we would like to see in office."

I do not question but that there are plenty of women in Utah, or elsewhere, for that ma'ter, who are capable of filling, creditably, the majority of official positions, but I do most seriously question the possage of the good that would result from the passage of the good that would result from the passage of the filling of such offices "with women of nerve," "strong-minded women" or "wosk-minded women." It is a fact generally conceded by even the staunchest advocate of woman's "rights" that the true sphere of woman is her there is no work more becoming or more suited to woman than the domostic daties of the rhousehold; that there is no work the following the present of the country.
